

## ASURA TOLLING SUITE

THE ACCESSIBLE TOLLING PERFORMANCE BOOST

### COMPANY OVERVIEW

ASURA delivers a modern software foundation for toll operators by replacing fragmented, hardware-dependent processes with a unified, camera-only, intelligent data environment. We enable operators to elevate accuracy and efficiency while keeping their current infrastructure in place.

### THE ASURA TOLLING SUITE

The Tolling Suite is a modular monitoring and analytics platform engineered to integrate seamlessly with existing roadside devices. Operators can modernize tolling step by step, gaining precision data collection, real-time awareness, and automated decision support across even the most complex networks.

### ASURA VISION

#### INTELLIGENT DATA COLLECTION

- Camera-only AI triggering: Object detection for ANPR, category, and movement
- Reliable hardware performance: in collision zones, construction areas, and solar-powered sites
- Enforcement-ready output: High-integrity event streams for national and regional systems

### ASURA INSIGHTS

#### ADVANCED DATA ANALYTICS

- Network-level oversight: Real-time visibility across hundreds of infrastructure elements in a single interface
- Custom analytics: In-house data teams design dashboards tailored to operator-specific KPIs
- Predictive maintenance: Device-level performance with automated anomaly alerts

## WHY CHOOSE THE ASURA TOLLING SUITE?

- Compatible with Existing Roadside Hardware
- AI-powered Accuracy Eliminating Toll Leakage
- Reduction in Human Visual Verification
- Faster Processing, Higher Throughput

## BUILT FOR REAL-WORLD TRAFFIC CONDITIONS

- Multi-Lane Free-Flow
- Scalable under Traffic Peaks
- Strong in All Weather & Visibility
- Flexible Classification (axle default)

## GLOBAL FIELD PERFORMANCE

- Hungary Nationwide Toll Network: 7,400 km network, 1,300 cameras, 140 gantries, 40+ mobile control units, and 2M+ daily events.

### Fully delivered lifecycle:

- Indonesia MLFF Program: ASURA data collection module delivered in 2022; KPI benchmarks validated the system as operationally ready in 2025.

## FOR PRICING & DEPLOYMENT OPTIONS

For regional module pricing, configurations, or tailored modernization programs, contact APS Solutions, official integrator of the ASURA Tolling Suite.
